“

Hi, I'm Inna, a 2D artist I have 4 years of experience as a freelancer and dozens of satisfied customers.

For the last 3 years, I have been working with the great Dzen team on comics, games, and other commercial projects.

I am a creative and energetic person. I like to learn new tools and techniques. Because of the war in Ukraine, my family and I were forced to flee from our beloved home. And I desperately need a job to financially support my family. I would be grateful for my job.
Peace for everyone.
